**Grant Cameron : The Clinton UFO Storybook: Extraterrestrial Politics in the White House** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Clinton UFO Storybook: Extraterrestrial Politics in the White House:

The extent of government protection for UFO secrecy and cover up is unbelievable. This book sets the stage and heightened anticipation for Hillary's willingness to disclose, should she become president. All the cases detailed among the 13 previous presidents on this subject have had disappointing results possibly indicating 'trouble beyond our capacity'. Grant Cameron demonstrates his relentless research and legal challenges for the Freedom of Information Act because of his personal connections with witnesses. He is adept at showing how President Obama has managed to strictly choose each word of response when presented with UFO questions. His illustrations will be helpful in assessing 'disclosure' under the next president.2 of 2 people found the following review helpful. Matrix of UFO BeliefsBy Dr. Ali FantThe Clinton UFO Storybook ndash; ET Politics in the Whitehouse copy; 2016 by Grant CameronKindle EditionReviewed by Dr. Ali Fant, WB5WAFThe book is extensively referenced and seeks to explain the Clinton family's prior and present knowledge of ufology. The book includes insights from some major UFO researchers: Steven Bassett, Richard Dolan, Stanton Freeman, Steven Greer, Richard Hoagland, Bob Lazar, John Mack, Jesse Marcel Jr., Edgar Mitchell, Whitley Strieber, and Jacque Vallee. These were some names that I recognized.What I found most interesting is the 'third level' of possible U.S. Government levels of awareness, involvement, and/or 'control' of the UFO phenomena. The levels appear in Appendix 1 - Matrix of UFO Beliefs. The briefing was prepared for President Clinton's Science Advisor Dr. Jack Gibbons.The 'Matrix of UFO Beliefs' was originally written by investigative journalist Richard Farley.Level 3 purports our national government is 'In contact to some degree, and 'co-operating' with at least some of the source-phenomena or intelligences, either for technology trading or because the government believes it has no choice.' I would extend Level 3 to all national governments worldwide.The Warsaw Ghetto during the Nazi occupation was governed by self-elected Jewish leaders. The Germans found it easier for the Jewish leaders to round up and co-op their own population than for the Germans to do it. Evidence exists when one compares the MUFON database of sightings/abductions with the unique identification numbering system exposed by Dan Sherman in 'Above Black: Project Preserve Destiny.' The fears recorded in the 1961 'Brookings Report' for NASA could well be the simplest logical explanation for why US Presidents refuse to reveal any human abductions by aliens. Likewise, it does not matter who is elected President because the cover-up

will need to be continued. 2 of 2 people found the following review helpful. But the repetitive nature of this book is painful to read. By Always Seeking Mr. Cameron is a legend. He has my utmost respect. But the repetitive nature of this book is painful to read. I simply don't understand it. I would eliminate 50% of it. There are a few nuggets I hadn't learned before, otherwise, everything in it is already "out there" in ufo literature. I understand that Cameron is trying to lay the ground for some form of upcoming disclosure that is already rearing its head reluctantly and cautiously, but geeeeezzzzz.....this was painful to grind through.

Despite a multitude of differing views on UFOs, everyone can feel that big changes are on the horizon. Everyone sees things through their particular lens. In the media, not only in America but worldwide, news reports of extra-terrestrial phenomena are on the increase. Whether you refer to them as unidentified flying objects or unidentified aerial phenomena, it matters not. The fact is stuff is happening worldwide at an increasing speed as if this planet is being prepared for something big. Something that could radically alter the way we live our lives and the way we view existence. Grant Cameron, who has for decades dedicated himself to researching what American presidents have known about the UFO phenomena, has reached the conclusion that presidents' denying knowledge is just a cover, and that they actually have known and do know. To what end? Despite your individual view, the information in this intriguing book will validate the fact that Americans stand on a threshold and must make a choice. The President of the United States is the most powerful person in the world. Thirteen of them have dealt with the modern UFO phenomena. Bill and Hillary Clinton have been the most open about their handling of the mystery. Bill said he was fascinated with the subject and has talked about it many times. Hillary has said she is very interested in the UFO subject saying she doesn't believe all the witnesses could be making it up. She has gone on the record as the first high-level politician to state that aliens may already be here. She has promised to disclose as many classified UFO files as she can on the subject if she becomes president. This book provides a historical look at the Clinton's UFO story. It starts with the efforts during the Clinton administration by billionaire Laurance Rockefeller to get UFO disclosure, and the story ends talking about the box that was built by Hillary's 2016 presidential campaign chairman John Podesta to try and ensure that UFO disclosure happens.
